

Settimo Milanese, 2005/03/2

Year VII, Nr. 2/05

WARNING

Caution:	Follow these instructions only for products manufactured with Nylon PA6 o PA6.6.
-----------------	---

Dear Customer,
we wish to remind you the following instructions, in order to keep the elasticity characteristics of the plastic materials used on some of our products to guarantee a good usage:

- ◆ **Stock the plastic products using the original plastic bags duly sealed;**
- ◆ **Stock the products at more than 15°C;**
- ◆ **Once you pick up components from the plastic bag during winter time, it is advisable to use them within 48 hours;**
- ◆ **Seal the plastic bag during the production stop;**
It is advisable not to leave the products close to heating sources while stocked;
- ◆ **Seal the plastic bags in case of moving / storage;**
- ◆ **If the components are stocked and/or moved at lower than 0°C, leave them at more than 15°C for at least 2 days before using them.**

These instructions are necessary to keep permanently the physical/mechanical characteristics of the product as manufactured by us.

ITWELETTRO GIBI
